

## *Our Principal*

Greetings to the class of 1961. I am sure you have all enjoyed the many hours that it took to put out this 1961 Aggie, which is not only a book, but it is a picture of life at the Northwest School of Agriculture. It is something you will cherish for years to come.

To all the students of the Northwest School, I would suggest that you strive to get all you can out of your stay here on the campus. Only through such effort will you find success, and life will be much more worthwhile.

*E. J. Kearsy*

## *Our Superintendent*

Dr. B. E. Youngquist, Superintendent of the Northwest School.
