

Freshmen

We were one of the smaller classes in senior high, and we did not feel too sure of ourselves. We had to find our new home-rooms and our classes. A lot of the juniors and seniors were very grown up and seemed as large as the teachers.

It seemed strange from being the oldest class in grade school to being the bottom of the heap as freshmen. But everyone was friendly and wanted to help us get started. Of course, we received lots of advice and encouragement.

Most helpful were our teachers. They explained the plan of the buildings and told us how to find our way around.

Another thing that made us feel at home quickly was the Aggie Student Council that took us on tours.
