Memories Linger

Those of our class who attended Itasca Leadership Camp will remember the continually rainy weather, the problems we discussed, and the generally enjoyable time we had meeting with other "Aggies."

Remember the sack hops without a phonograph, the problems of meeting the Sunday night curfew, the fun we had putting on "The Bargain Bride" and the numerous other activities that made high school so much fun.

Yes, our years in high school have been filled with many rewarding moments. As we go our separate ways we will be reminded of the many experiences we have had here at the Northwest School that have helped us to prepare for the future.
