

Carpentry Club

The Carpentry Club at the Northwest School is one of the more active organizations on our high school campus. Under the leadership of Mr. Menzhuber, this club does many things which are of service to the school. For instance on Parents' Day, the frames for most of the display tables were made by this club. Whenever there is a class play, you are sure to find some of the carpentry club members as stage hands. Furthermore, on Parents' Day, the club was of further assistance when they served coffee at the auditorium. Perhaps the greatest benefits are derived by those who like to work with wood.

The Carpentry Club was first organized to be of service to the school and in order for anyone to become a member, he must be voted in by a unanimous vote. The membership may not exceed eighteen persons so that the club would be small enough to handle themselves well and get more done.

The Carpentry Club owes a lot to Mr. Menzhuber because he puts so much of his spare time into working with it. He comes out to school every Monday evening for the meetings and helps us and gives us advice with anything we want to know. We are sure that if you would ask any of the members of Carpentry Club, they would all say that he is simply the greatest.

Officers: Secretary, Mark Moe, Advisor, Mr. Menzhuber, Vice-President, Paul Overgaard, Treasurer, Jon Saxman, President, Alan Dahnke.

FRONT ROW: Mark Moe, Leslie Deckert, Alan Boushee, Gary Burns, Marvin Peterson, BACK ROW: Wayne DeYoung, LeRoy Slominski, Paul Overgaard, Jon Saxman, Mr. Menzhuber, Alan Dahnke, Stanley Overgaard, Jim Wallace.
