

Campus Clinic

The Campus Clinic, our health service, is that obscure building next to Bede Hall. This is where we get our shots and receive treatment for our various illnesses. The upstairs is well equipped with beds to accomodate those who need personal attention.

Mrs. Kruta, our registered nurse on campus, becomes more than busy caring for the students. When winter comes it seems as if she is constantly making trips to the hospital with students who were unlucky enough to come in contact with various illnesses.

MRS. RUTH ANN KRUTA, Warren, Minnesota, R.N. Kohler Hospital School of Nursing, P.H.N. University of Minnesota; Public Health, Home Nursing, School Nurse.
