

Our Superintendent

DR. B. E. YOUNGQUIST; B.S.,
College of Agriculture, University
of Minnesota, M.A., Ph.D., College
of Education, University of
Minnesota.

Since the days following his first undergraduate degree from the University, our Superintendent has been a man of various vocations. He began his teaching career as an instructor of vocational agriculture at Starbuck, Minnesota and advanced from there to the school of Agriculture at Morris, Minnesota. Here, Dr. Youngquist served as a Home Project Supervisor and dormitory counselor. From Morris he went to Waseca as one of the founders of that school and its principal. At the present time Dr. Youngquist is the head of our research station and Superintendent of our high school.
