

# Administration

It is the objective and responsibility of the Administration to see that students attending this college will grow in responsibility and citizenship through an awareness of the social, political and economic forces of our country and world. This awareness will arise from a well planned and administered curriculum of study. Personal growth will be stimulated through participation in campus activities and from the experience of group living in the dormitories .

Two-year programs of study are available to those desiring collegiate -level preparation of less than four years duration. The associate degree will be awarded to students completing the respective course requirements.

DR. SAHLSTROM  
Director of the University of Minnesota Technical Institute

KARL BORNHOFT  
Business Manager

HARLAND HASSLEN
