

Now We Are Two

Now that it is
two years old
Tech is growing up and exploring
new paths, urged on by an adventuresome
faculty full of
ideas and enthusiasm.
Those of us who are graduating
and trying the main highways
will never forget
this school and its beginnings
in 1966. To be
a *first* as a student
is an enriching experience.
In this, our second book,
we have tried to show you
how we have grown up and
what it is like to be
two.
