

*Jim Kasel discusses student problems with Rep. Long of the State Legislature. Below: Two local high school seniors learn about Tech from Steve Langager.*

*Gov. LeVander examines an information bulletin with Dr. Sahlstrom.*

## Tech Had Visitors

Everyone from the governor of Minnesota to the bewildered high school senior looking for a college was a visitor on campus this year. Regents, University Officials, legislators, committees from business and industry, parents, and local supporters have roamed the campus, discussed problems and plans with the administration, held conferences, talked to students and teachers, drunk coffee, and expressed avid interest in the college's programs and progress.

Parents were honored at a special convocation and style show in November just before Thanksgiving holidays. Local high school prospects were red-carpeted during the winter, and those from outlying towns toured the campus and met students and faculty in April. Tech was also chosen as the location for seminars and special meetings during Winter Shows.

Yes, Tech had visitors!

*A special during Snow Days was the lighting ceremony to turn on the new campus illumination. In the flood of light are King Bunkowske, Queen Miller, Regent and Mrs. Skyberg, Rep. Fitzsimons (switch flipper), Rep. Skaar, and Tom Hagen.*
