

Football Season Rated 'Average'

Football for 1969 found Tech with a new head coach, Maurice Paulsen, and an average season with an overall record of 3-4. With many of the starters going both ways, a conference placing of second wasn't bad at all. Most of the players lacked that necessity for success, game experience, from the start, but they picked it up throughout the season. Because three-fourths of the team will be returning for the 1970 season, the results will be well worth watching.

Jim LeClair, Richard Wehking, and Joe Kelly were named to the Minnesota State Junior College all-conference squad. Denis Braukmann won an honorable mention. The team was captained by LeClair and Dan Motschenbacher.
