

# Ag Majors Prepare Selves for Careers

Inspecting the motor of the aviation majors' vehicle are Leelan Evans, Mr. Miller, and Gerry Gustafson (TOP). Instructor Miller (ABOVE) sits at his control station as Gerry takes the wheel and Leelan holds the data sheet.

Comparing soil samples are Dr. Soine, Roger Birkhofer, and Ron Harjes (BELOW). Ken Schwanz and Merlin Johnson (RIGHT) give Betsy the grooming treatment.

Tearing motors apart is part of the ag game, Rich Wehking and Greg Sprick discover. They are being coached by Mr. Caveness.
