

Stanley D. Sahlstrom, PhD.
Provost

Moving straight ahead with his eye on the track, the man at the throttle has never bogged down at crossings or missed a signal or a signpost. Since 1966 when the Legislature established the branch at Crookston, Dr. Sahlstrom, first as director

and then as provost, has guided the crew and directed the expansion of programs, facilities, and timetables. A busy life? Yes. But never too busy to chat with students and faculty or to give counsel to those who seek it.
