

Harlan Rademacher receives congratulations from Darrell Larsen, Senate president, for his participation in student government and activities.

Introducing the Class of '72

They've produced leaders. They've given service without complaint. They've had high scholarship, many of them, and been serious about their goals. And, above all, they've been fun to have around. Yes, UMC is going to miss the class of 1972 and all its Steves and Jerrys and Evies and Joanies and Darrells and Kevins. But we wish them all bon voyage and give them a vote of thanks for coming here to school and letting us be their friends. May their shadow never be less.
