

Ag Is Their Work

Despite the label, Dan Svedarsky, M.A.; Philip Buckley, PhD.; and Edward Veazey, M.S., are really teachers of natural resources.

Soils and agronomy. In this field are William Bohl, M.S.; Charles Habstritt, M.S.; Donald Keith, B.S.; and Clair Stymiest, M.S.

UMC's first exchange teacher under the UKRE program is Cedric Osborne of Maidenhead, Berkshire, England. He is a horticulturist who has swapped posts with Bruce Beresford, veteran UMC faculty member. Osborn and his wife, Jean, and daughter, Allyson, came to Crookston in August, 1976, and returned to England last month. The Britisher teaches at Berkshire Agricultural College, Maidenhead. Mrs. Osborne is a physical education instructor in a private school.

Agriculture is UMC's most popular field with an enrollment that exceeds any other division. There are seven major areas of study, with 24 major options offered. William Orr, B.S., left, has taught mechanized and business ag. Below, Roger Wagner, M.A., right, and Ric Osborne, B.Ed., note the progress of the begonia-ceae. Obviously, they teach horticulture and floriculture.
