

# Ag-Arama

Ag Arama was held January 23-24, 1981. The two days consisted of contests for students to test their abilities in activities of their choice. The events were a variety of contests in horticulture identification, animal science showmanship, log peeling, speaking contests and many others. Overall this was a day for students to forget about home work and have fun. On the final evening Greg LaPlante, and Jackie Malo were named King and Queen Ag Arama.
