

*Provost Sahlstrom when he took the reins of UMC in 1965.*

*We the 1982-83 students of UMC dedicate this issue of the Trojan to you — Provost Stanley D. Sahlstrom.*

*The Provost's involvement with and his love of horses is not something new. He is pictured in Austria during World War II. His Army service led to a career which spanned 30 years and a retirement as a Colonel in the U.S. Army Reserve.*

*In appreciation for the many qualities that make you special in the hearts of your students.*

*For sharing your mind, your heart, and yourself with us in so many ways.*

*For teaching us to have faith in our ideas, in ourselves and in our fellow man.*

*For awakening in us the restless drive for answers and insights.*

*For teaching us truth, goodness, and beauty through the example of your own life.*

*With much love, we take joy in presenting this expression of our thanks for all you mean to us.*

*The college map attests to the buildings and facilities Provost Sahlstrom is responsible for. Shaded areas indicate additions since 1965.*
