

CHANCELLOR SARGEANT'S ADDRESS

The academic year 1985 - 86 was a significant year in the history of UMC. It was the year of Commitment to Focus; that is, a commitment to strengthen UMC as a small rural college by focusing on what UMC is best suited to do.

This yearbook does just that. It exhibits the closeness of the students, faculty, and staff in a learning and living environment. It is an environment which provides a wide variety of student experiences, both in and out of the classroom.

We at UMC are pleased that you chose to attend this institution. We extend our best wishes to each of you.
