Dietetics Club

During the 1998-99 school year the Dietetics Club took part in many campus activities. The club held a diabetes screening for UMC students and staff. Two cholesterol screenings were held during the year in which the club members helped with paper work and handing out educational information. For Valentine's Day they sold personalized heart shaped cookies for a fundraiser. Several members of the group traveled to the Warren High School and did an educational workshop about nutrition. Some students helped with Ag Activities Day that was held on the UMC Campus. The Dietetics Club is working hard to promote good health & nutrition.
